MINDSET

Let's get those kids out of the playroom, it's time for the grown ups to play! Inspiration and creativity come easily when surrounded by playfulness, humor, and energy.

DESIGN INSPIRATION

Remember those colorful building blocks where shapes and combinations were unlimited and structures had at least three uses? In the grown-up world, where we play with up-cycling and the re-use of component parts, wit and naïve creativity are in-built. DIY and modular constructions quickly get the customization treatment, and tomorrow they could all change.

CRYSTAL INSPIRATION

Playful sparkle and glitter, colorful dazzle and gleam, crystals add depth and value to plain, utilitarian, functional materials. In this, their most unexpected environment, crystals become a puzzling and stimulating addition. A very grown-up sense of emotion and value is added to plain, bright colors.

KEYWORDS

Playful, energetic, humorous, DIY, spontaneous.

COLORS

We are playing with a naïve, energetic color palette, where fun brights mismatch with candy-land pastels.

PROGRESSIVE Room to play

<p>pantone 15-1816 TPX peony</p>		<p>pantone 12-5410 TPX bleached aqua</p>	
<p>pantone 19-3438 TPX bright violet</p>		<p>pantone 17-4735 TPX capri breeze</p>	
<p>pantone 18-1445 TPX spicy orange</p>		<p>pantone 16-1253 TPX orange ochre</p>	
<p>pantone 19-4050 TPX nautical blue</p>		<p>pantone 13-0755 TPX primrose yellow</p>	

This explosion of vibrant color is boosted by high-gloss, rhythmically patterned surfaces that play games with the eyes. Transparency contrasts with opacity, punched or laser cut

designs interrupt liquid smooth flatness, and molded shapes give curve and energy. Crystals glitter from flat, super shiny surfaces, giving unexpected points of dazzling light.

02

05

04

03

07

06

08

- ← 01. quirky cork, wood and shiny metal structures
- 02. matt cork and shiny blue steel
- 03. shimmering, perforated surfaces in fluorescent colors
- 04. saturated and subtly glittering smooth surfaces

- 05. panels of brightly colored glass
- 06. colorful bendy plastic strings
- 07. mind-bending color blocking
- 08. soft neoprenes in playful shapes

This is a DIY playroom and laboratory of fun! Components are there to be built, altered, re-built, re-purposed, and to be extraordinary. The room is inviting and friendly, a place

where individuality can be expressed, marks made and the concept of furniture played with. Adding a bit of crystal razzle-dazzle, the surprise is complete!

02

03

04

06

07

05

08

- ← 01. bright lines alter perspective and reality
- 02. swirling grid patterns in transparent glass
- 03. perforated metal, construction-kit material
- 04. playful stands with plastic wire separations

- 05. only a suffused glow reveals the socket!
- 06. colorful binding makes a feature of practicality
- 07. psychedelic color in solid glass
- 08. quilted and padded upholstery

Light is a stimulus, it can be interactive, smart or touch sensitive. In its most dazzling form it can be crystal-bright and fluorescent, pinpointing areas of interest and high-light-

ing colored surfaces. Clever illumination can play with our sense of space and distance. Light can also be split into pure, crystal refractive colors, our visible world.

02

03

04

05

06

07

08

- ← 01. illuminated walls with graduated color
- 02. colored wire threads emit a grid of light
- 03. stretched textile and fiberglass lamp
- 04. a light cube, or cube light

- 05. hexagonal support for rounded shades
- 06. funnel shaped lights, cords in full view
- 07. curved boards of colored wood
- 08. aluminum modular elements to create lamps

Adults need to play too! A bit of quirky spontaneity and wit can brighten our working day, and don't forget that color is a powerful mood enhancer. Even

tiny objects can be thoughtfully designed to make us look twice, smile, and think again about how beauty can be found in small things.

02

05

03

04

07

06

- ← 1. a retro-futuristic look
- 2. conical forms for playful aesthetics
- 3. witty angular handles in fresh tinted ceramics
- 4. match-boxes with illuminated lids

- 5. playful, multi angled mirror
- 6. geometric trays to re-configure daily
- 7. colored glass pots with concrete or brass parts
